Shamsie's family was forced to flee Poland during World War II. They settled in Pakistan, where they struggled to adjust to a new culture and way of life. Food was one of the few things that provided them with comfort and a sense of home.

Shamsie writes about the different types of bread that her family ate in each country they lived in. In Poland, they ate rye bread. In Pakistan, they ate roti. In England, they ate white bread. Each type of bread represented a different part of their journey.

Bread is more than just food for Shamsie. It is a symbol of her family's history and identity. It is a reminder of the places they have lived and the

people they have loved. It is a source of comfort and strength.

Bread: A Memoir of Hunger is a beautifully written and thought-provoking book. It is a story about family, food, and the search for belonging. It is a book that will stay with you long after you finish reading it.
