Print length : 19 pages

Conan the Barbarian is one of the most iconic comic book characters of all time. Created by Robert E. Howard in the 1930s, Conan has starred in countless stories, novels, films, and television shows. But it was in the 1970s that Conan truly came into his own, thanks to a groundbreaking comic book series from Marvel Comics.

The Marvel Conan series was launched in 1970, with Roy Thomas as writer and Barry Windsor-Smith as artist. The series was an instant hit, and it quickly became one of Marvel's best-selling titles. Thomas and Windsor-Smith's Conan was a brutal, savage warrior, but he was also a complex and sympathetic character. The series explored Conan's adventures in the Hyborian Age, a prehistoric world of magic and monsters. It was a world that was both familiar and strange, and it was a perfect setting for Conan's exploits.

The Marvel Conan series ran for over 200 issues, and it helped to make Conan one of the most popular comic book characters in the world. The

series also spawned a number of spin-offs, including *Conan the King*, *Conan the Barbarian*, and *Conan the Destroyer*. These spin-offs were all successful in their own right, and they helped to keep Conan in the public eye.

In the 1990s, the rights to Conan the Barbarian were acquired by Dark Horse Comics. Dark Horse has continued to publish Conan comics, and the character remains one of the most popular in the world. Dark Horse's Conan comics have been praised for their high quality, and they have helped to introduce Conan to a new generation of readers.

Conan the Barbarian is a timeless character who has captured the imaginations of readers for decades. The Marvel Conan series is a classic of the comic book medium, and it is still one of the most popular Conan comics ever published. If you're a fan of Conan the Barbarian, or if you're just looking for a great comic book to read, then I highly recommend checking out the Marvel Conan series.

The Creative Team Behind Conan the Barbarian

The Marvel Conan series was created by a talented team of writers and artists. Roy Thomas was the writer of the series for most of its run, and he is considered to be one of the definitive Conan writers. Thomas's Conan was a complex and sympathetic character, and he was able to capture the essence of Robert E. Howard's creation.

Barry Windsor-Smith was the artist of the series for its first 25 issues, and he is considered to be one of the greatest Conan artists of all time. Windsor-Smith's Conan was a powerful and imposing figure, and his art helped to define the look of the character for years to come.

Other notable artists who worked on the Marvel Conan series include John Buscema, Ernie Chan, and Gil Kane. These artists all brought their own unique styles to the series, and they helped to create some of the most iconic Conan comics ever published.

The Impact of Conan the Barbarian

The Marvel Conan series had a major impact on the comic book industry. It was one of the first successful fantasy comics, and it helped to pave the way for other fantasy series, such as *The Lord of the Rings* and *Game of Thrones*. The series also helped to make Conan one of the most popular comic book characters in the world.

The Marvel Conan series is still considered to be one of the greatest comic book series of all time. It is a classic of the fantasy genre, and it is still enjoyed by readers today. If you're a fan of Conan the Barbarian, or if you're just looking for a great comic book to read, then I highly recommend checking out the Marvel Conan series.
