This book is a timely and comprehensive exploration of the multifaceted nexus between social and political issues and sustainable development in the post-COVID-19 era. Drawing on a wide range of case studies and

expert insights, it examines the complex interplay between environmental challenges, social justice, economic inequality, and global governance.

Through a multifaceted analysis, the book sheds light on the following key themes:

- **The impact of COVID-19 on social and economic vulnerabilities:** The pandemic has laid bare the stark disparities in access to healthcare, education, and economic opportunities, highlighting the urgent need to address these inequities.
- **The role of social movements in shaping sustainable development:** The book explores the growing influence of social movements in demanding climate action, social justice, and economic equality, and their potential to drive positive change.
- **The challenges and opportunities of global governance in the post-COVID-19 era:** As the world grapples with the aftermath of the pandemic, effective global cooperation is more crucial than ever to address transnational challenges such as climate change and inequality.
- **The need for a transformative agenda for sustainable development:** The book argues that a fundamental shift in our economic, social, and political systems is necessary to achieve a truly sustainable and just future.

With its rigorous analysis and forward-looking perspective, this book is an essential resource for policymakers, scholars, activists, and anyone seeking to understand the complex challenges and opportunities facing sustainable development in the post-COVID-19 era.
