Dr. Melillo is a world-renowned expert on autism and the founder of the MARI Institute, a non-profit organization dedicated to helping children with autism. For over 30 years, Dr. Melillo has been developing and refining his groundbreaking treatment, which is based on the principles of Applied Behavior Analysis (ABA). ABA is a scientific approach to teaching that uses

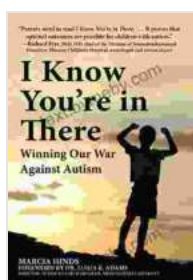

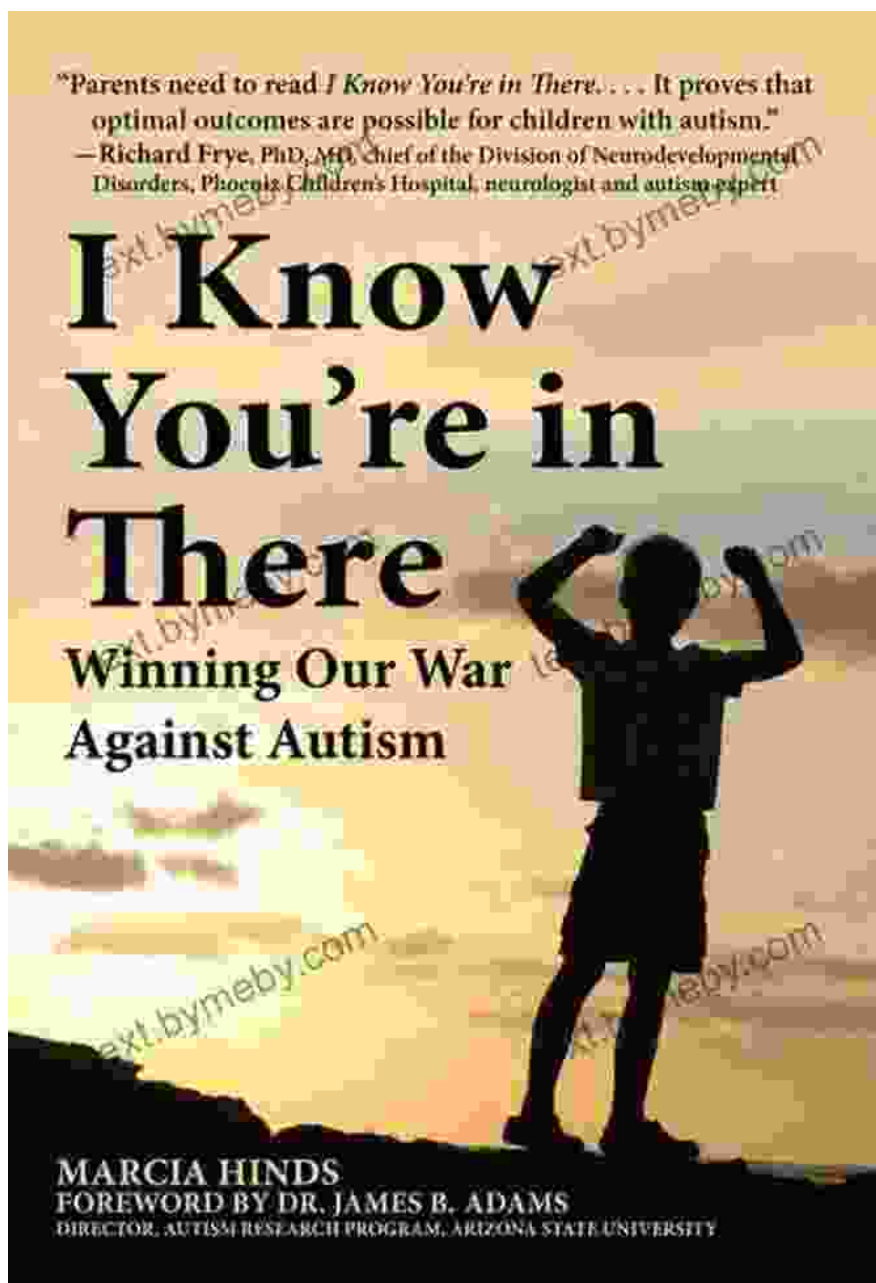

positive reinforcement to shape behavior. Dr. Melillo's treatment uses ABA to teach children with autism the skills they need to succeed in school, at home, and in the community.

The results of Dr. Melillo's treatment have been nothing short of remarkable. In a study published in the journal Pediatrics, children who received Dr. Melillo's treatment for two years showed significant improvements in their social skills, communication skills, and cognitive abilities. Many children were able to mainstream into regular classrooms and participate in extracurricular activities. Some children even went on to college and careers.

Winning Our War Against Autism is a must-read for parents and families of children with autism. Dr. Melillo's breakthrough treatment offers hope to those who have been struggling to find answers. This book will give you the tools and knowledge you need to help your child reach their full potential.
